

THE AWKWARD TRUTH ABOUT MARIJUANA LEGALIZATION

YOUR NEW REEFER MAIN STREET

Legalization has nothing to do with individual rights and everything to do with pot profits.

The only increases Big Marijuana has brought to states that have legalized are:

Increased homelessness

With an influx of individuals looking to live in a state where they can easily access their drug of choice.

Increased workforce uncertainty

with workers failing to pass drug tests and companies looking for out of state applicants.

Increased pot shops

Concentrated in low-income neighborhoods and neighborhoods of color.

Increased ER visits

Due to poisonings from edibles marketed toward kids.
